
PRESIDENT'S MESSAGE

Greetings everyone!

On behalf of the Program Chair, Dr. Ryan Smith, the Program Committee and the Board of the Directors of the Mid-Atlantic Section of the AUA (MA-AUA), I am delighted to share the abstracts scheduled for presentation at the 80th Annual Meeting October 13 – 15, 2022 (Hilton New Orleans, New Orleans, Louisiana).

We strove to create a diverse program that includes non-traditional topics in urology as well as health policy and traditional science. We are fortunate to have keynote speakers whose careers embody cross pollination of disciplines incorporating fields like psychology and engineering with medicine. Scholarship amongst our section remains strong and we received excellent submissions for presentation from medical students, residents, and practicing urology providers. Winnowing the submissions down was difficult as always with the final tally including 7 resident essay contenders, 93 moderated posters and 10 video abstracts from all subspecialties in urology. We hope to see much of this work result in publications and other types of enduring materials that help inform current practice.

I would like to thank *CJU International* for their continued relationship with the MA-AUA and their commitment to support our academic efforts through publication of these abstracts. I look forward to personally welcoming you to New Orleans this October to see these works presented and discussed in person.

Warm regards,

Tracey L. Krupski, MD, MPH
President, Mid-Atlantic Section of the AUA

TABLE OF CONTENTS

Resident Prize Essay Podium Session RPE-01 to RPE-07	2	Moderated Poster Session 4: Oncology 2 MP4-01 to MP4-18	28
