
President's Message from Dr. Aria Olumi

While nature has been busy getting ready to change over to a beautiful autumn, the New England Section of the American Urological Association has been busy too, making preparations for the 92nd Annual Meeting in Bretton Woods, New Hampshire.

I would like to extend a sincere thanks to Drs. Peter Chang and Elodi Dielubanza who have built an outstanding Annual Meeting program for our community. They have secured Mark Litwin, Professor and Chair of the Department of Urology at UCLA as our Leadbetter Lecturer. Rose Khavari, MD from Houston Methodist Hospital and Andre Abreu, MD from University of Southern California will be Guest Speakers. We will also have outstanding panels – one on voiding dysfunction and another on Incorporating APP into Urologic Practice. A rich program of abstract presentations will round out the meeting.

*Aria Olumi, MD
NEAUA President*

Section members Michelle Kim and Martin Kathrins have organized a practical hands-on course. Regional Advanced Practice Providers have created a wonderful course for APPs. Peter and Elodi and their teams have designed the 2023 program to be an outstanding education event. I look forward to seeing many of our Section members in New Hampshire!

We will work hard, and then we will play hard too! We have arranged for a reception on Friday September 8th on the rooftop lounge of the Omni Hotel which will be a fun and relaxed opportunity to network and mingle. We will also have receptions in the exhibit hall so that we can reconnect with our colleagues in industry. Other events to look forward to are the highly anticipated Resident Quiz Bowl, and an excellent Young Urologists Forum.

Aside from our planned events, Bretton Woods is a wonderful, eclectic destination that offers pristine views of the White Mountains, and many other experiences for our meeting participants.

We look forward to seeing everyone in Bretton Woods.

Sincerely,

Aria Olumi, MD
President, NEAUA

TABLE OF CONTENTS

Scientific Session I: Stones/Endourology 2 Abstracts 1 to 9	Concurrent Poster Session II 29 Abstracts P13 to P30
Scientific Session II: Prostate Cancer I..... 7 Abstracts 10 to 20	Concurrent Scientific Session V: Infertility, Sexual Dysfunction and Men's Health..... 39 Abstracts 35 to 43
