

## **Minimally Invasive and Endourology “Enhanced” Community Urology Fellowship - Toronto**

Humber River Hospital in Toronto is pleased to offer, starting July 1, 2023 a one year fellowship in “Enhanced Community Urology”.

This is a fully certified by University of Toronto fellowship. It is open to any Canadian applicant who has passed his/her written Royal College Exams and able to obtain a license in Ontario.

“Enhanced”, because Humber River Hospital (fully affiliated with University of Toronto, Queens and McMaster) is in the unique position to have 10 urologists under one roof who perform the full range of Urologic Surgery including: Full endo urology with self access, GreenLight laser, Blue Light Laser with Cysview for bladder cancer, White light laser, Female urology and Laparoscopic and ROBOTIC Urologic surgery.
